EXPERIENCE

Amazon Studios, Los Angeles — *Nuke In-House Compositor*

September 2022 - May 2023

Worked closely with renowned showrunner Greg Daniels and the creative team on the third season of tv show 'Upload'. As an in-house compositor I diligently created temps for 100s of shots across all 8 episodes. I actively incorporated feedback from the showrunner, ensuring desired vision was hit, as well successfully finalizing many of these shots, greatly contributing to the visual storytelling of the series.

Freelance, Los Angeles — *Nuke Compositor*

June 2014 - Present

Nuke Compositing for feature film, television and commercials for studios such as Technicolor, FuseFX, Alkemy X, Logan.tv, Imaginary Forces, Shade Studios, Timber & Buddha Jones etc.

Staff, Los Angeles — *Nuke Compositor*

April 2015 - March 2020

Staff position for various studios in LA as a Nuke Compositor. I worked for Mammal Studios, Picture Head, CoSA VFX, Van Dyke Visual Effects, Inc

EDUCATION

University of Agder, Norway — *Bachelor of Multimedia Technology & Design*

August 2011 - May 2014

Foundation in computer science principles, advanced multimedia production techniques, and proficiency in 3D visualization tools prepared me for versatile roles in the ever-evolving multimedia and technology industries.

California State University, Northridge — *Study Abroad Program*

August 2013 - May 2014

Two semesters - Emphasis on animation and visual effects.

PROJECTS

Eclipse — *Visual Effects Supervisor - 2019*

As an on-set and post visual effects supervisor, I collaborated closely with the director on award winning short film 'Eclipse', effectively overseeing both on-set and post production visual effects, ensuring their alignment with the directors artistic vision.
